Cumulative GPA: 15.06/20.00

WORK IN PROGRESS

Insecurity and Immigration Attitudes among First-generation Asian American Immigrants

RESEARCH EXPERIENCE

Insecurity and Immigration Attitudes among Latino and Asian American Immigrants

Duke University

Master's Thesis **Advisor:** Christopher Johnston

Sep 2025 — Mar 2026

- Extended social identity theory by proposing economic and identity insecurity as sources shaping exclusionary attitudes toward new immigrants among newly naturalized Asian American and Latino citizens
- Methodology: Factor analysis, structural equation modeling

Distrust and Online Politics: Reassessing the Trust-Participation Link

Duke University

Independent Study **Advisor:** Sunshine Hillygus

Feb 2025 — May 2025

- Analyzed the non-linear relationship between political trust and online political participation, with a focus on how trust levels may differentially motivate digital political engagement
- Methodology: Ordinary least squares, logistic, ridge regression models

Party Cue as Information: Do Campaign Messages Help Voters Learn?

Duke University

Independent Study **Advisor:** Jack Knight

Feb 2025 — May 2025

- Examined how voters use partisan cues to acquire political knowledge and make more informed electoral decisions, challenged the long-standing view of widespread voter ignorance
- Methodology: Ordinary least squares and logistic regression models

Effectiveness of Consumer Vouchers in Post-Pandemic Economic Recovery

Renmin University of China

Undergraduate Thesis **Advisor:** Yudong Sun

Dec 2023 — Mar 2024

- Conducted a comparative policy analysis of consumer voucher programs across 55 cities in 15 Chinese provinces to assess their effectiveness in post-COVID economic recovery
- Methodology: Difference-in-differences analysis
